

JANESVILLE LINEMAN IS ELECTROCUTED

KEEP AWAY FROM WORLD COURT, IS ADVICE OF HIRAM

CALIFORNIA SENATOR, IN DINNER SPEECH, HITS MOVE.

WON'T END WAR

Futile as Peace Agency, But Europe Would Draw U. S. Into League, Charge.

[BY ASSOCIATED PRESS.]

New York—Senator Hiram Johnson, California republican, declared Wednesday night that America should stay out of the world court and the League of Nations and insisted that the nation's foreign policy should be decided at the polls in 1924.

Senator Johnson, who returned Monday from Europe, where he talked with leading statesmen of many countries, expressed his views at a dinner given in his honor by a committee composed largely of men who supported the late Theodore Roosevelt in his third party campaign for the presidency in 1902.

The chairman of the dinner committee was Col. Rhinelandier Waldo, George Henry Payne, active in state republican politics and a campaign manager for Roosevelt, was vice chairman. Mayor Hyman of New York was among the guests.

Wont Check War

Many friends of the senator have boomed him as a presidential candidate.

PREMIER POINCARE IN CONSTANT FEAR OF POLITICAL FALL

RUHR STAND RESULT OF INTIMIDATION, NOT DETERMINATION.

ENGLAND MISSED

French Public Wearing of Lone Hand in Trying to Coerce Germany.

By DAVID LAWRENCE

Copyright, 1923, Special Cable Dispatch to the Gazette.

Paris.—Outwardly Premier Poincare looks like "the strong man of France," but actually he lives in constant fear of the various groups that support him. His inflexibility with reference to the reparations question during the last several months has been the result of intimidation, not determination. And his downfall will come in a few months when the people of France realize that their national interests have been just as well preserved, and more might have been gained at the same time by a proper understanding with other allied powers.

It is true that the British, American and Italian viewpoints on what ought to be done about reparations have not coincided with what the man in the street in France wants to see done, but nevertheless there has been a common ground.

Rehm Holds Rum Stock Under Bond

NORMAL BOARD IN FUND ALLOTMENT

Facts Will be Put Before Blaine but Without Definite Plea.

[BY ASSOCIATED PRESS.]

Elkhorn.—Pending disposition of the replevin action against Sheriff Hal Wiley, Frank Rehm, Lake Geneva summer resident and formerly of the Grönnes and Ulrich distillery house of Chicago, holds the choline liquor, seized near Genoa Junction May 5, under \$15,000 bonds.

This explanation of the removal Wednesday afternoon of the liquor from the Walworth county jail where it has been since it was hauled here from Genoa Junction, was given by Attorney Charles French, Lake Geneva. He refused to state where the liquor is now held, saying:

"That is something that won't be divulged. We have been robbed three times."

It is claimed by Rehm that the liquor was stolen from his summer home.

Court May Decide

Asked the value of the liquor, Mr. French said that that is something that is something that hasn't been determined, there being no legitimate market for the bonded whiskey, gin and wine, which composed the stock stolen. It is expected Mr. French said, that trial of the action to determine whether the liquor shall remain the property of the state or be returned to Rehm will be made at the October term of the Walworth county circuit court.

The Lake Geneva attorney maintains that the only point holding up the return of the liquor to Mr. Rehm is the claim of Wisconsin that he did not have a state permit at the time the liquor was seized. This point must be decided by the court.

It is brought to a head through the replevin action Mr. Rehm claims that the federal permit is sufficient.

Interest in County

Walworth county has been much interested in the outcome of the fight of Mr. Rehm to recover the alleged stolen liquor. The liquor was in a hole through the floor, gained entrance to the vault and unlocked the door from the inside. They said the men then loaded the liquor onto a motor truck and fled.

Stories told to the sheriff by them differed. The strange party about the "robbery" was that it was not reported to the sheriff's office until after the liquor had been taken to a hotel and stored away.

And the sheriff's office then seized and seized the truck which the men abandoned when stuck in the mud. The truck was claimed by a Chicago garage company, which alleged it had been rented to an unknown party.

BASEBALL STAR IS HALTED BY COURT

Milwaukee Team Has "King" Lear Enjoined from Playing with Nash Motors.

[BY ASSOCIATED PRESS.]

Milwaukee.—Fred P. (King) Lear, who jumped his contract with the local club of the American association, a week ago Tuesday, was enjoined temporarily from playing with the Kenosha Nash Motors team of the Midwest league Thursday.

Judge Walter Schinz, in circuit court, granted the injunction.

Lear, who is on route to Kenosha from Canton, O., will be met at the station by a deputy sheriff of Kenosha county, armed with the injunction order, authorities here said.

NASH PLANS TO BACK PLAYER AGAINST BREWERS

The police rescued all of the 58 persons in the hotel when the fire broke out. The inn was a famous resort for sportsmen people.

TRAPPED ON POST AS 2,300 VOLTS KILL AMID FLAME

COMRADES BELOW FRANTICALLY POWERLESS TO RESCUE.

DISOBEYED ORDER

Luftstener, Abandoned Caution—Revival Efforts Fail—Wife Ill.

Strapped high to an electric light post, with his clothes flaming, and unable to free himself, Frank Luftstener, 25,605 Lincoln street, lineman for the Janesville Electric company, was electrocuted and burned to death at 10:30 a. m. Thursday at Racine and South Bluff streets, where an electric company crew was repairing wires. The wire which Luftstener contacted carried 2,300 volts, according to officials of the company.

Before the power could be turned off at the main station, and the linemen's strap loosened, it is estimated at least 15 minutes elapsed.

Luftstener, in company with Edward Buren and Frank Borten, two other linemen, was repairing high tension wires. Disregarding instructions, it is reported, the man ascended beyond the first cross wires and began work on the top set. Buren and Borten were on the ground.

Hung and Burned

It is believed Luftstener touched a neutral wire, completing the circuit with a live wire. With his arm thrown across the wire Luftstener hung for at least four minutes with the great voltage coursing through his body.

In response to calls to the electric company station by the frantic workers, the power for the entire district was disconnected, causing the east side of the city to be without current. The body was removed to the ground by Jack Quinn, foreman of the company, Robert Wigginton and Arthur Holdert, by means of ropes. According to witnesses, the man's clothes were flaming as he lay with his arms stretched across the wire.

Body Is Disguised

Three physicians, Dr. F. B. Fred Sutherland and Guy Wauke were summoned, working on the man for some time. They had attempted aid measures. The body was disfigured, with horrible burns on the arms, back and legs. He was pronounced dead by the physicians.

Luftstener had previously married and responded to the call, but the body was taken in charge by County Coroner Lynn Whaley, who pronounced death accidental.

Luftstener was working without proper equipment on a section line when he was electrocuted. John Quinn, chief linemen of the electric company, handling the high powered wires without rubber gloves. The man also had disregarded a charge of running work on the upper set of wires, he said.

Survived by Wife

The dead linemen has been employed by the electric company for a year and a half. He came to Janesville from Racine where he had resided previously. Married shortly over a year ago, Luftstener is survived by his wife, who is reported to have been ill for some weeks. His parents are said to be dead.

Until 12:35 Janesville Electric company employees worked over Luftstener with the Schaefer prone and pressure method of resuscitation but, repeated attempts at artificial respiration and resuscitation at the last. The work of attempted resuscitation was in charge of Manager William B. Schmidt.

Revolution Near Unless Farmer Need Is Relieved, Declares Magnus Johnson

[BY ASSOCIATED PRESS.]

St. Paul.—Political, industrial revolution or even a resort to arms faces the United States if conditions confronting the laboring man and farmer are not changed, in the opinion of Magnus Johnson, recently elected senator from Minnesota on the farmer-labor ticket.

Many think the same thing that happened in Russia cannot happen in this country," the senator said Thursday in a statement to The Associated Press, but don't fool yourself; it could happen before you knew what was going on.

"The farmer has a big army, but he couldn't stop a revolution. We haven't hardly any army at all, so what could our government do if there was a nation-wide revolution? It couldn't do a thing."

Many things need changing, the senator said, when asked if he had a definite plan for altering conditions, but "right now" he has nothing worked out. It will all have to be worked out by congress he said.

Farmer in Dire Need

The farmer is in dire need, he continued, and "emergency legislation" is needed to remedy the situation. But clamoring for a special session of congress, "that isn't any use," he said, "for President Harding, in a letter I saw recently, said he wouldn't call a special session under any circumstances."

"The farmer should have cost of production, plus a reasonable profit, definitely guaranteed by the government," Mr. Johnson holds, "because the farmers' products have lost their buying power and, when

PLAY SAFE, HE WARNS

It employed in a dangerous occupation, exercise caution and watch your step.

There are more accidents this time of year than any other because of the effect of the heat upon the mind. William B. Schmidt, manager of the Janesville Electric company, said.

More precaution should be exercised now than any other time of the year, he says, because heat causes the mind to become sluggish.

This is borne out by statistics compiled by various organizations which show the peak of the accident season is at mid-summer, Mr. Schmidt said.

HARDING PRAISES PEACE LESSON OF U. S. AND CANADA

[BY ASSOCIATED PRESS.]

Vancouver, B. C.—President Harding, in an address made during his visit here Thursday—the first visit ever made by an American president to Canada—pointed to the century-old friendship between the people of the United States and the people of Canada as proof to the nations of Europe that public will, rather than public force, is the key to international peace.

"It is public will, not public force, that makes for enduring peace," he told his audience of Canadians, gathered in Stanley park. "And it is not a gratifying circumstance that it has fallen to the lot of us North Americans, living amicably for more than a century under different flags, to present the most striking example yet produced of basic fact." WARD AGAIN IS INDICTED FOR MURDER

White Plains, N. Y.—Walter S. Ward, wealthy baker's son, Thursday was re-indicted on a second first degree murder and was held without bail. Trial was fixed for Tuesday, Sept. 4.

Accused of having shot to death Charles E. Peters, an ex-convict, Ward was found near the Kensico reservoir on May 16, 1922. Ward was taken to the Westchester county jail, he was indicted on a charge of murder June 15, 1922, but the indictment was dismissed.

The finding of Peters' body, at Kensico, led to the arrest of Ward. Identification was made Ward's and said he had shot Peters in self defense when attending a meeting with blackmailers who had demanded huge sums of money.

DEAN WARNS FRATERNITIES ON DRINKING

[BY ASSOCIATED PRESS.]

Madison.—Drinking among students at the University of Wisconsin led Dean Scott H. Goodnight, dean of men, to advise fraternities in a letter received Thursday, that the discovery of any "parties" will lead to the closing of their houses.

I am sorry to learn that drinking is again practiced among the students this summer, and that it seems to be increasing in amount as the season wears on," Dean Goodnight wrote.

The dean enclosed a letter of advice from the 1922 summer session, which he said applied at this time. This set out that if "scandalous drinking takes place on the premises of the organization will be held responsible and its house closed."

CATTLE ARE READY FOR FAIR CIRCUIT

Part of County Exhibit Will be Taken to Rock County Fair.

With 40 head on the fair grounds, and more to be sent in during the coming week, progress is being made in the cattle exhibit of the Rock county show herds. The full line-up of cattle will be made by J. C. Nisbet by Saturday morning.

A part of the cattle display will be shipped early next week for exhibition at the Rock county fair in Evansville. This will be the first test of the county show stock in the fair. From Evansville the stock will be shipped back to Janesville and the full array of cattle be put through the judging ring.

Rock and Jefferson counties may compete for the first time at the Janesville fair, as the breeders of the neighboring county have signed their intention of showing herds. If the Jefferson county Holstein and Guernsey herds are brought to Janesville, breeders will see close competition in these two breeds.

Swine entries have been delayed but will be made from the top animals at the Rock county and Janesville fairs. In all it is expected there will be 80 head of cattle and about three carloads of swine shown under the county banner.

"While we may be weak in some classes and do not expect a sweep-stake of top prizes, they are going to know Rock county has good cattle and swine, regardless of the breed," stated Mr. Nisbet, who will manage the show herd. We have not had time to inspect all the herds we would have liked, due to limited time. The county will be especially strong in the bull classes, and has many females that are good enough to go in any show ring. They are good entries."

All cattle that have been brought to the fair grounds have passed the tuberculin test, required at all fairs in Wisconsin and Illinois this year where stock is being taken.

It is hoped to take the top animals in the junior club exhibits at the fair in Rock county to show at Milwaukee. Several head for the county exhibit are being shipped directly to Milwaukee from Rock county, and space will be available for the club exhibit.

DEATH OF MIACA BLOW TO CLOWNS

Joseph, Friend of Greatest Clown, Tells of Circus' Best.

Sitting under the "big top" after Tuesday afternoon's show of Ringling Brothers and Barnum and Bailey, Herman Joseph, a clown who has been with the organization since 1910, remembered well the days when Al Miaca, veteran clown, performed his antics and made the thousands laugh.

Miaca died early this week at his home in New York at the age of 70. "Al" was the typical clown," said Joseph. "He was what we know as the white-face worker, that is, he was not a character clown but one whose face was covered with white paint with black and red designs here and there. He did not paint large, disfiguring marks on his face, as many clowns of today do, but made himself a little more well-artistic. He made a pretty picture as he stood alone in one of the rings, face-painted white, and in an outfit entirely white. He used enough white paint during his career to paint the Woolworth building."

Miaca Had Brains. "Miaca was one of the best liked clowns that Ringlings ever had. I think he liked everybody and was liked by everybody. While he was not the brainless character that clowns portray, still he was not the ugly, cross one that some stories would have us believe.

It was Miaca's grieving over the death of his son, Stephen, seven or eight years ago, that hastened his death. Stephen was also with the show, playing a clown part, and his death was a great shock."

Played Here in 1920. Joseph, who was much in evidence Tuesday at the circus, said he had a great deal of experience himself, and he too, is well liked as Miaca was. When he joined the circus, he was more than pleased when he became a friend of the great Miaca. He had heard so much about him.

Miaca played here when the circus was last in Janesville three years ago. It was shortly after the close of that season—that he retired, too old to continue in the antics that require much agility. He had been given his full salary every month since that time.

The oldest clown now with the show is Jules Turnour, 63, who acts as mail-carrier in addition to performing daily.

Bankers Return from Convention

Thomas Cullen, Frank Gleason and Miss Edna Kronitz have returned, after attending the national convention of the American Institute of Banking at Cleveland last week. R. W. Little, another delegate, went to Yonkers, Ind., to join Mrs. Little and children, who are visiting relatives. Mrs. Bertha Kendrick went on to New York to visit her parents at Pleasantville.

The men were delegates to the convention, attended by 2,000. Conferences were held during the day and entertainments given, evenings. A boat trip was taken to Cedar Point, 60 miles.

Officers were elected the last day. Ralph Spaulding, Chicago, representative for the Southern Federal Reserve, was elected to the executive council. The Janesville banks are in the southern reserve district. Baltimore, Md., is to be the scene of the 1924 convention.

W." leaders from both cities will participate in the district conference.

WILL NOT DISMISS I. W. W. INJUNCTION. Sacramento—A motion to dismiss the temporary injunction against the Industrial Workers of the World and its officers, recently granted Sacramento county and directed at the activities of the organization throughout the state, was denied in the superior court by Judge Malcolm C. Glenn.

BRODHEAD

Brodhead—A gas tank at the Fleck & Plumb garage exploded Wednesday while Henry Schneider, an employee was endeavoring to mend a leak. No one was injured and no damage done beyond the loss of window glass and the tank.

Miss Hazel Braschler, Madison, was the guest of Dr. and Mrs. G. C. Darby the first of the week. Will Helm visited his brother, John, in Janesville. The latter met with an accident Saturday, result in the compound fracture of his leg. Silas Loveland went to Monticello Tuesday.

Mrs. W. D. Cress departed for her home in Birmingham, Ala., Tuesday. She visited her parents, Mr. and Mrs. Charles Laube, and other relatives. Miss Florence Wiseman, Milton Junction, is at the A. S. Myers home while Mr. and Mrs. Myers are absent on an automobile trip in the northern part of the state.

Miss Esther Peterson visited her brother, Albert, at Mercy hospital, Janesville, Tuesday. Albert is recovering from an operation for appendicitis.

George Nix is seriously ill. Sherman Bros., who conducted a small store here a short time last spring, have been declared bankrupts. They will have their hearing before C. E. Lamb, referee in bankruptcy, in Madison Thursday.

Mrs. Jessie Brown-Morehouse departed Tuesday for her home in New York city, after visiting relatives here. She was accompanied by Miss Nellie Gardner, who will remain in New York several weeks.

FEAR MOTORIST HAS BROKEN NECK

Fond du Lac—Mrs. Charles Delven, St. Charles, Ill., is in a hospital here suffering from what physicians believe to be a broken neck, the result of an automobile accident near here. The woman's husband was driving the machine when it skidded into a ditch. Mr. Delven and his daughter were severely cut and bruised.

NEW MOTORS SHED TO HOLD 600 CARS

Completed, Along with Dock, in Month — Sprinklers to Cost \$100,000.

Work on the driveway shed for the Chevrolet Motor company and construction of the loading dock which runs the length of the building is progressing. Work will soon start on installation of the \$100,000 sprinkler system in both the Chevrolet and Fisher Body company plants which is expected to pay for itself in the first year through reduced insurance rates.

The concrete and brick flooring of the enclosure in which the driveway shed will be erected is advancing rapidly under supervision of Charles Wilson, engineer. It will be large enough to house 600 automobiles and will be completed within four to six weeks, he said Wednesday. The dimension of the shed is 288 x 20 feet.

Near the main entrance, the Chevrolet will construct a drivers waiting room and garage for officials. There will be a large fire-place, chairs and tables where drivers can comfortably await drive-away orders. At the present time they wait on the front steps of the building.

Twenty more days work should see completion of the 500 foot loading dock on the south end of the building by the Hayes and Lane Construction company, Janesville, Mr. Wilson said.

Tearing up the beautiful lawn of two plants on Industrial avenue will be necessary in a short time to lay outside piping for the sprinkler system. The contract, let to Sowers, brothers, Rockford, is for \$75,000 and other expenses incident to installation, will bring the total to \$100,000.

WILL IGNORE PHONE TIPS

Warning that anonymous communications and telephone calls to the police department would be ignored in the future, was made Wednesday by Chief of Police Charles Newman. Police officers state numerous telephone calls are received daily, "tipping" the officers of alleged moonshine resorts and other disreputable places. In most instances the reports, upon investigation, have proved unfounded. "All complaints made in person or signed communications to the police department will receive thorough investigation," Chief Newman said Wednesday. "Authentic telephone calls will also be accepted, but we intend to ignore all anonymous communications in the future."

Use olive oil and have hair with lovely gloss

Hair cannot have light and color if it is left dry and brittle. Hair specialists all agree that it must be shampooed with olive oil, which cleans but never leaves hair dry and dull.

Now thousands and thousands of women enjoy the finest of olive oil shampoos, economically at home. They use PALMOLIVE SHAMPOO—olive oil in its most convenient form. Washes away all dirt and grime; removes dandruff. And it leaves hair with rich life and gloss. Get a bottle today at any department or drug store. Just one shampoo will amaze you. Try it, and see.

INTEGRITY SERVICE

Announcement

THE STUDEBAKER CORPORATION OF AMERICA is pleased to announce to its customers, friends, and the public generally, its complete line of new

1924 Model Studebaker Cars

Avoiding the superlatives frequently used in automobile advertisements, the Corporation desires to faithfully state the facts concerning these cars and the reasons why the public should buy them.

THE CARS

In design, quality of materials, standard of workmanship, durability, refinements, performance, freedom from repairs, and price, the Studebaker 1924 Model Cars are distinctly the greatest intrinsic values the Corporation has ever offered.

Every improvement the safety and practicability of which have been verified by engineering tests is embodied in these new cars.

The Big-Six

THE BIG-SIX LINE comprises four models, mounted on the standard 126-inch chassis with 60 H. P. 3 3/4 x 5 inch motor: 7-passenger Touring Car - \$1750 5-passenger Coupe - \$2550 5-passenger Speedster - \$1835 7-passenger Sedan - \$2750 all prices f. o. b. factory

Refinements and a few minor mechanical changes have been made in the Big-Six, which has established an enviable record for five years. Our large production accounts for its low price. It is a car of the highest grade, comparable to the best.

The Special-Six

THE SPECIAL-SIX LINE comprises four models mounted on the standard 119-inch chassis with 50 H. P. 3 3/4 x 5 inch motor: 2-passenger Roadster - \$1325 2-pass. Coupe-Roadster - \$1975 5-passenger Touring Car - \$1350 5-passenger Sedan - \$2050 all prices f. o. b. factory

Radiator, hood, cowl, and body changes have been made in the Special-Six, with minor mechanical changes and refinements in the chassis. The Special-Six has for five successive years added luster to the name STUDEBAKER. It is one of the most satisfactory and finest cars on the market. It is as good in every respect as the Big-Six, except that it is smaller, and costs less to produce, and therefore sells for less.

The Light-Six

THE LIGHT-SIX LINE comprises four models, mounted on the standard 112-inch chassis with 40 H. P. 3 3/4 x 4 1/4 inch motor: 3-passenger Roadster - \$975 2-pass. Coupe-Roadster - \$1225 5-passenger Touring Car - \$995 5-passenger Sedan - \$1550 all prices f. o. b. factory

No body or mechanical changes except refinements have been made in the Light-Six. Over 130,000 Light-Sixes have been produced in the new, modern \$30,000,000 Studebaker plant at South Bend, Indiana, under most economical and

almost ideal manufacturing conditions. In our judgment, it stands out as the greatest value and the closest approach to mechanical perfection in moderate priced cars yet produced.

THE REASONS WHY

With \$90,000,000 of actual net assets and \$45,000,000 invested in plants, Studebaker has ample physical facilities to manufacture most economically.

Studebaker's organization of manufacturing executives, engineers, metallurgists, chemists, inspectors, and skilled mechanics is second to none in the industry. The design of Studebaker cars and the workmanship upon them conform to the highest principles of engineering standards and mechanical practice known to the industry.

Best of Materials Used

Studebaker cars contain the finest known grades of iron, steel, aluminum, tires, electrical equipment, glass, bearings, etc. No better materials for automobile manufacture exist. Sheet aluminum has but one-third the tensile strength of sheet steel, and consequently, Studebaker uses sheet steel for its bodies.

By the manufacture of drop forgings, castings, stampings and the machining, assembling and finishing of motors, axles, frames, transmissions, bodies, tops, etc., and the consequent elimination of middlemen's profits, coupled with lower overhead factory costs per car arising from quantity production and low commercial expenses, Studebaker's costs are kept at an economically low point possible of attainment only by manufacturers with vast physical and financial resources.

Bodies Unexcelled

The bodies of Studebaker cars are not excelled in quality of materials and craftsmanship, by any cars on the market. The Coupe and Sedan closed bodies are magnificent examples of the coach builder's art.

Merit Wins

The sales of Studebaker cars for the past six years have shown each and every year a progressive increase. 81,880 cars were sold in the first six months of 1923 as against 60,053 for the same period last year. Only products of merit can make such growth.

REVOLUTION IS NEAR UNLESS FARMER RELIEVED

(Continued from page 1)
The farmer can't buy the country. He can't sell it. He can't get it. He can't have it. He can't live on it. He can't work on it. He can't do anything with it. He can't do anything but suffer.

It will be necessary for congress to proceed carefully, but right now temporary or "emergency" legislation is needed to take care of the situation. This is the only way.

Explaining "some of the things that can lead to revolution," the senator-elect said "65 percent of the wealth of the country is in the hands of two percent of the population," and unless "there is a better distribution of this wealth the common people are going to revolt against it."

This better distribution of wealth, he said, "could be accomplished through heavier taxation of large and successful corporations, taxing of non-productive incomes, excess profits and 'profits' with regulation of their activities, so the added burden could not be shifted again to the people."

Bonus from Big Profits.
Mr. Johnson is "for" the bonus for former soldiers payable out of taxation on excess profits; he wishes to "change the federal reserve system" and curb the power of the United States supreme court, to "do away with 8-10-1 decisions," and perhaps call for unanimous decisions.

There is another thing Mr. Johnson wants everybody to understand. Though a friend of the farmer and the laboring man, he would "not consent to turning congress over to the exclusive benefit of that class, any more than I want it to be run for the sole benefit of the capitalists. Congress should be run for everybody, and be run on the square."

Class of 54 at Summer Normal Will End Course

Whitewater—Commencement exercises for 54 men and women will be held at the Whitewater Normal school at 10 a. m. Friday with the address being given by E. G. Doudna, secretary of the Wisconsin Teachers' association of which President Frank S. Rye of this institution is the president.

In the class, which concludes its course with the close of the summer school session, are 23 who complete the commercial teachers course; 13, primary, nine, grammar, five, rural, two principals; two, high school and one business course.

The professional starts at 10 o'clock with music by the normal school orchestra. The address by Mr. Doudna will follow, and the normal school quartet will sing. President Rye will present the diplomas.

The normal school has enjoyed a splendid year with 258 students being graduated. Of these 98 were given diplomas in February, 103 in June and 54 this week. The summer school attracted 451 students, slightly less than a year ago.

The school will close Friday for six weeks.

SCHOOL FOR THE DEAF.

ATHLETIC BADGES FOR PLAYGROUNDS

Open Swimming Contest at Beaches Planned for Friday, Aug. 1.

Athletic badge tests are now being given by the playground directors at schools. They are distributed by the Playground Recreation association of America and badges are awarded to those passing the tests. They consist primarily of balancing, throwing and running tests and games, and badges are awarded according to ability.

An open swimming contest will be held at the beaches Friday, Aug. 1, to which there will be two classes for boys and girls. The first class for boys is "12 and under," and the second "13 to 17." The two classes for girls are "12 and under" and "13 to 17." The directors are holding elimination swimming contests now in preparation for the meet.

The second of the series of band concerts being held at the various playgrounds was given Thursday afternoon. The high school band plays and the spirit maintained during the summer months is remarkable. Twenty-six boys and girls are playing.

All who wish to enter the swimming contest Aug. 1 may sign up at the playground for which they wish to compete. The contest will be in charge of Russell Palmer and William Fearn, life guards at the beaches.

42 Girls Sign for "YW" Camp

Forty-two young women are making preparations to leave the city at 12:30 p. m. Wednesday, Aug. 1, for Conference Point, Lake Geneva, to attend the Y. W. C. A. camp. The following six young women have been named counselors for this group: Misses Evelyn Oestreich, Isabel Pember, Adelheid Fuchs, Helen Fellows, Jean McNamara and Ruth Fisher. The first group returns to Janesville Aug. 12 and is to consist of junior high school girls.

A group of senior high school girls will leave Aug. 12, to be gone until Aug. 19. Their counselors are the Misses Delilah Pember, Ethel Hanson and Margaret Nelson. A third group of girls made up of junior high school students, will leave Aug. 19 to remain until Aug. 23. The Misses Freda Wortendyk, Isabel Pember, Adelheid Fuchs, Ruth Fisher, Dorothy Oestreich and Genevieve Jensen are to be advisors for this company.

Miss Gertrude Gerlach and Miss Mary Bannister, will be at camp acting as the camp nurses. The former is to be at Geneva from Aug. 1 to 19 and the latter from Aug. 12 to 19.

DELAVAN

Delavan—Mr. and Mrs. Roy Patchen, Chicago, were Delavan visitors the first of the week.

Miss Anna Ege, Chicago, is a guest at her sister and relatives, while home on her vacation.

Mrs. F. C. Zimmerman attended a meeting of the Fairfield Community club at the home of Mrs. Arthur

Stewart, Wednesday. Twenty-five women were present and an elaborate luncheon was served. The ladies worked on articles which they are preparing for their bazaar.

Mrs. T. Cavaney attended a meeting of the Loyal Duty club, Wednesday afternoon, at the home of Mrs. Harry Huggins, Rock Prairie.

The Misses Emma and Ida Ege, Mrs. Will Ege and Mr. A. Morehouse spent Wednesday at Landerdale lakes. The Fairfield Community club will hold a bazaar's sale there Saturday afternoon, August 4.

Morrissey Hands Out Stiff Fines to Rum Violators

Elkhorn—Two thousand dollars in fines for liquor law violations were assessed against three men by Judge Edward Morrissey in Walworth county court Thursday morning.

All three were warned by the court that they would not have an opportunity to pay a fine if they failed him for the second time on similar charges.

David Rattman, a Jew peddler of Milwaukee, was fined \$1,000 or six months, when he pleaded guilty to two counts of sale and two of transportation of intoxicating liquor. Attorney Zabel, Milwaukee, pleaded for leniency, declaring Rattman had a large family. He will stay in jail until he pays the fine.

Henry Baker and Ernest Wendt, Allen Grove, were fined \$500 each. Baker rented a room from Harry Dawson, in which he made the moonshine, and another at the Wendt place. Dawson previously paid a fine and was a state witness.

Hiram Johnson and Europe.
After reading Hiram Johnson on the state of European affairs one is inclined to believe that he has made the most careful and honest study of the situation and has a clearer and less prejudiced idea of what America should do in the circumstances than any of the other persons, big and little, who have attempted to "see Europe" this summer in a few days as official observers. Mr. Johnson is also in accord with David Lawrence, the Gazette's correspondent, on the statement that Europe does not know what it wants or how to help itself.

In Mr. Johnson's opposition to the world court alone there appears that irreconcilable prejudice that sticks to him. It has been made clear by President Harding that under no circumstances will the United States enter the League of Nations as a result of a world court. Nor is the world court as now made up of the kind of an organization that President Harding is talking about. Nor has he averred at any time that he believed a world court could or would settle the acute issues or eliminate the dividing lines between nations and races which might lead to an appeal to arms. In its function the world court would however be a continuing body for the purpose of arbitrating those numerous differences which arise between nations. It is not enough to say that the United States shall never at any period take part in such settlement. We have been doing it for years here at home and acting as arbitrator and other differences have been settled involving the United States and other nations by this same method ever since the Geneva Committee of Awards set up a court to decide the Alabama claims arising out of the depredations of privateers under the British flag during the Civil War, fifty years ago.

But as for settling European questions, standing as a buffer between greedy and jealous nations, old and new, or mixing in things which have to do with the least and division of the spoils of war, we are with Senator Johnson. It is no part of the work, the business or the national task of America, either practical or altruistic. What one would like to see is some consistency on the part of the American advocate of isolation however at times. If we are not to take part in European settlements then we should stop talking about closed European markets and failure of government to stimulate them. A bankrupt Europe is buying about all it can from America and the only way they can obtain more of our products is to borrow money from us on credit. Also we have economic problems here in the United States which transcend all interest in what is happening in the intriguing courts and capitals of Europe.

Seems to us a lot of people forget that hot weather generally comes in the summer time.

Near the End in Germany.
Much more would be done for Germany were the republic of Ebert and the empire of Stinnes and Thyssen, the industrial monarchs who have made millions upon millions as profiteers out of the German financial situation since the war, had Germany been honest in her acceptance of the penalties for a murderous and cataclysmic war. As it is now Europe is at sea as to what to do in the financial debacle that at last has arrived for the German with the mark a worthless piece of paper, trillions of them being printed every day and 800,000 of them buying in the value of a dollar of American money, the world looks on helplessly at aid.

For three years the German financial situation has never stood still—it has been heading toward chaos all the time and chaos has been reached. Stinnes and his millionaire friends will not suffer. It will be the poor people, the professional men and women, the pensioned widows and orphans of a wicked war, and the persons with small investments, the children of the poor and the masses generally. For these there will be the utmost sympathy and what aid can be rendered will be offered and given by outside nations. The government will find itself in the position before the condition is changed of repudiating the mark entirely and rationing its people, though that means confiscation of products for saving the helpless from starvation.

It looks as though they would have to sign a new armistice in Europe.

Mr. Gompers congratulated Magnus Johnson. Mr. Gompers wants higher wages for labor. Mr. Johnson wants lower wages for farm hands. Mr. Gompers congratulated Mr. Johnson. Mr. Gompers wants no support of soviet Russia by union labor. Mr. Johnson wants Russia recognized. Perfect harmony.

The Duke of York has issued a refusal for the royal family to unveil any more war memorials. He says "there are too many pressing and important demands on his time." It must interfere dreadfully with his polo.

MANY FRAUD ORDERS ISSUED

By FREDERIC J. HASKIN
Washington.—The recent avalanche of fraud orders from the post office department, directed toward oil operators, principally in Oklahoma, shows that the postal fraud is in another of its periodic cycles. In the last few months, the post office department has found it necessary to issue nearly a score of fraud orders.

A fraud order is an order issued by the post office department which denies the privilege of receiving mail to the person against whom it is issued.

There are various kinds of crooks and criminals. Probably the most dignified one is the highway robber or the pirate. The highway robber must face danger in an acute form. He must be prepared to fight or to fly for his life. He must be ready to withstand hardships of all kinds and he must keep under cover and in constant fear of apprehension. The pirate must face not only the wrath and retribution of mankind, but also the anger of the elements. When he can escape his human enemy, often he can not escape the sea. His rights as a citizen are null and void. Not so with the perpetrator of a postal fraud. He does not face his victim on the highway. He does not brave the perils of the deep. He never sees his victim but operates against him through the mails. He makes Uncle Sam his accomplice, his messenger. Uncle Sam is extremely touchy on that subject. He never wittingly lends himself to this sort of service and is constantly on guard to prevent his mail service being used for fraudulent ends.

The post office inspectors constitute about the most highly trained detective agency in the government service. They are constantly on the lookout for frauds. Experience makes them keen at spotting them out.

The Oklahoma oil frauds are extremely daring. Various operators of schemes have been mixed up in them and it may be still others will be found. Oil in the southwest has been productive of a good deal of free advertising. News reports of gushers and big earnings, the romantic fact that the Osage Indians are drawing millions in royalties from their Oklahoma lands and kindred information have laid the ground for the postal fraud perpetrators. They send glowing prospectuses broadcast through the mails. Some offer to sell their stock in companies. More recently they have been offering to sell leases.

The offer of stock is one to which the public gradually has become accustomed. It is hard to sell stock to people because they have been bitten so many times before. But there is something which sounds technical and important about the term "oil lease." The unwary wage earner, the widow and the school teacher feel that this must be all right.

In some cases there is a very remote possibility that the lease purchased might be valuable, but the possibility is so very remote that in the cases recently investigated by the post office inspectors, fraud orders were speedily issued. The most glowing accounts are contained in the literature and therein chiefly lies the fraud.

An operator might simply say to the public: "I have some land in Oklahoma. Oil has been found in Oklahoma and there is a remote chance that my land may produce some. If you want to take a long chance and gamble a few hundred dollars, here's your opportunity." But that isn't the method.

The circulars sent out make the rosiest claims. A recent one issued by the post office department as evidence in the issuance of a fraud order said that the leases offered were "a genuine throw" from a famous gusher. The inspectors found out that the "famous gusher" was a well a mile away, which had failed. It is possible that some one in the world might develop an arm that would throw a stone a mile and the gusher might be famous for being such a poor one, but the post office feels it can not translate the advertisements in this manner and takes the position that they mislead the public and are intended to mislead.

There is a wide variety of fraudulent business done by mail. It usually is short-lived, but the old hands at the business know how to get around the government to a certain extent. If a fraud order is issued against George Jones, the man will start in anew. As The George Jones company. Another order will be issued in that name and the next dodge will be George Jones and Company. Each time, the government must go through the motions. The address, of course, is changed each time also.

Some of the most ingenious frauds are very ingenious. One of the most interesting in recent years was a Belgian hare scheme. A man advertised widely that he had Belgian hares to sell. He offered to sell them at \$10 a pair. He would buy back their offspring at \$1 apiece, he agreed, and his literature was calculated to hold up to the "credulous purchaser, the rosy possibility of making a fortune out of Belgian hares." The advertising gave the impression that the man was really more in the buying than the selling business. He was actually a hare dealer and had hares for sale and at the same time agreed to buy unlimited numbers of the offspring.

The scheme was this. The man started with only a very few hares. These creatures multiply rapidly. He would carry out the terms of his agreement and buy back the little bunnies. He then would sell these at \$10 a pair. He increased the scope of his advertising to keep pace with his receipts of young hares. Theoretically, he could have started with only one pair of hares and before long had many people raising hares to sell to him at \$1 apiece so he could resell them at \$10 a pair.

As a matter of fact a hotly contested lawsuit arose over the legality of this business. The man actually was keeping his promises and had thousands of people buying at \$10 a pair on the one hand and selling back fresh supplies at \$2 a pair on the other. The business was done through the mails and the government finally put a stop to it. It was clear that ultimately such a business must collapse with loss to the public. The man could not forever make good his agreement to buy all the hares offered to him. He stopped business and went to Canada with many thousands of dollars.

Some perpetrators of mail fraud get jail sentences; some merely lose the use of the mails. In recent years there has been an increasing tendency to send the fraudulent operators to jail. Some cases are made difficult by the fact that technically, the swindlers carry out the precise terms of their agreement. The most famous case of the kind is that of the man who advertised widely that he would furnish anyone with a beautiful steel engraving of George Washington for 60 cents a copy. This looked fair enough and thousands sent in their money. Each received in return for his half a dollar a two cent stamp.

words, Both Henry Ford and Magnus Johnson get along with far less than that.

"Brains, not beauty" says Winifred Hook, "save women from the galleys." Therefore we shall revise recent advice to ladies contemplating homicide. Do not look in the mirror; take an examination given by Thomas A. Edison.

Dave, Rose and Thomas Kearney have opened headquarters at Milwaukee in the interest of Al Smith for president. The state committee is for McAdoo. However no one believes the son-in-law candidate will spend any of the \$33,000 he received in fees from C. W. Morse, here in Wisconsin, unless he is elected.

JUST FOLKS

By EDGAR A. GUEST.
FRIENDSHIP
The man who hums a little song
When, free from care, he walks alone,
When his soul sees what is in his glad
And shares with all the joy he had,
Will find when grief is his to know
That he has friends to share his woe.

The man who whistles when he may
And does not have his mouth ajar,
Who, having strength, is glad to lend
His rich possession to a friend,
Will find when he is in despair
A host of friends to share his care.

The man who bravely views the rain
And does not bitterly complain,
Who seeks the good in life and men,
Will reap the golden harvest—when
His autumn comes and cold winds blow,
The joys of friendship he shall know.

Not always are we born to smile;
Each man must have his rugged life;
Yet he who journeys forth with cheer
When high above his path the strife,
Will not be lonely though the day
When trouble turns the blue to gray.

ON THE SPUR OF THE MOMENT
By ROY K. MOULTON.

OUR DAILY SHORT STORY
His Needs
"My brother bought a motor here last week," said an angry man to the salesman that stepped up to greet him, "and he said 'if anything broke you would supply him with new parts.' 'Certainly,'" said the salesman. "What does he want?"
"He wants two deloid muscles, a couple of kneecaps, one elbow, and about half a yard of testicles," said the man, "and he wants them at once."

Who's Who Today
S. PARKER GILBERT

The man who is acting secretary of the treasury and in charge of all fiscal operations of the United States government while Secretary Mellon is abroad, is not yet thirty-one years of age. He is S. Parker Gilbert.

He was born Oct. 13, 1892. The story of Gilbert's career as a public official dates back to the summer of 1917, of his superior ability had been in the law offices of Cravath, Henderson, New York—now Cravath, Henderson & Co. Gersdoff—for about three years before he came to Washington, a member of the finance firm, had been called to Washington in 1917 by McAdoo, secretary of the treasury, as special counsel in connection with Liberty Loan negotiations.

In the fall of 1917 congress created the post of assistant secretary of the treasury and S. Parker Gilbert was appointed by President Wilson. He became directing head of the Liberty Loan work, and soon thereafter asked Gilbert to join the war loan staff.

The unusual ability displayed by Gilbert as a member of the war loan staff won the confidence of his superiors. In the summer of 1919 he well retired to resume the practice of law. Gilbert found himself elevated, at the age of 27, to the vacant post.

When Andrew Mellon became secretary of the treasury he called upon Gilbert, and asked him if he would remain. Gilbert consented. In July, 1921, congress established the office of under secretary of the treasury, and Gilbert was selected.

LOOKING BACKWARD

FORTY YEARS AGO
July 26, 1883.—Messrs. Carpenter and McGowan, who were recently formed a copartnership in the law business, have just completed refurnishing and refurbishing their rooms in Lippin's block. Mr. Carpenter has been with Judge Cassoday, while Mr. McGowan, until now, has been connected with the firm of Bennett and Sale.

THIRTY YEARS AGO
July 26, 1893.—Lightning destroyed the house of Walter Tobin at Fulton last night and stayed Tobin and his daughter so that they lay out dead for hours—mayor then ordered and the council last night decided against any enlargement of the present police force, saying the city cannot afford it. Gov. Peck is here to attend the A. O. H. picnic.

TWENTY YEARS AGO
July 26, 1903.—Postmaster O. F. Nowlan will attend the big meeting of all state postmasters in Milwaukee in September.—One of the Forepaugh-Fish circus wagons crossed Jackson street bridge yesterday, in spite of warnings that it was weak and crashed through the floorboards.—Supt. Murphy of the street car department, is showing moving pictures of the Passion Play at Oberammergau, free to all street car patrons.

TEN YEARS AGO
July 26, 1913.—Playgrounds are meeting with unqualified success this year, the first hundreds of children flock to the Webster and Jefferson grounds daily, and enjoy the games under direction of Directors Law and Finley.—Up-to-date young men are soon expected to take up cubicle hair-cuts, having the hair trimmed in angles instead of curves.

HUMILITY OF CHRIST
Let this mind be in you, which was also in Christ Jesus. Let nothing be done through strife or vainglory; but in lowliness of mind let each esteem other better than themselves.—Phil. 2:3, 4.

Personal Health Service

By WILLIAM BRADY, M. D.
Noted Physician and Author

PRESENT STATUS OF THE GREAT DELUSION.
All agree that there has been an unprecedented amount of exposure on the part of the so-called "gold" men in recent years. The statistics of the census bureau show that 20 per cent more males than females succumb to pneumonia, though certainly, the males keep their bodies better covered than the females do.
The annual suicide rate is about 6,354 among males and 3,428 among females, but the statistics show that the weaker sex has the larger number of murders and maimings to its credit from the popular sport of open face sneezing and unmuzzled coughing.

Ten years ago the public health authorities were teaching that all alleged "colds" were communicable, but now they backed down on that teaching, giving 10 per cent off for popular approval. Now the public health authorities teach that we have 100,000,000 alleged "colds" in the United States annually, and 90,000,000 of 'em are still contracted through infection, the other 10,000 evidently just springing up after the fashion of "flu."

In some communities those who do the health work in the schools are excluding from school every child who has an alleged "cold," on the ground that the presence of such a child in the schoolroom is a menace to the health and safety of the other children. In other communities, admitting pupils with alleged "colds" even to the swimming pool, or excluding them from school, according to whimsical isolation of the frightfully common "cold"—as folks will call respiratory diseases when they are under the rules of hygiene. This will probably never be observed in this world to any appreciable extent; one's safety depends on constant watchfulness and suspicion of anything resembling a "cough" or "cold," that one may keep beyond the range of ordinary spray infection from the talking person whose fange is less than five feet from his mouth.

In some communities people caught expectorating on the floor or even on the sidewalk or street may be arrested and fined. If they do not do this, they are liable to be caught inflicting open face sneezes or unmuzzled coughs upon their neighbors in theater, church, cars, stores, and other public places, thus endangering the health of the community.

ASK US

(Any reader can get the answer to any question by writing the Gazette Information Bureau, 201-204 E. Milwaukee St., Janesville, Wis., and enclosing a stamped, self-addressed envelope.)
Q.—This office applies strictly to information. The Bureau cannot give advice on legal matters, but will endeavor to give full and complete answers to all questions asked. All replies are sent direct to the inquirer.

Q.—Does the temperature affect a bullet causing it to go lower or higher?
A.—The National Rifle Association says the temperature only affects the density of the atmosphere through which the bullet travels. It does not affect the flight of the bullet, so different sights are necessary in varying conditions.

Q.—How much does an American passport cost?
A.—It costs \$10. However, it must be used for each country in which it is to be used, and the price varies in price. A British visa, for instance, costs \$10.

Q.—What is the famous formula of Jeremy Bentham for judging a minister?
A.—The formula of this old time saint was in judging a young minister observe the carpe in front of the knees of his trousers. If the minister is worn and frayed and the pattern in the former is bright and shiny, ask him to pray for you.

Q.—Where is the oldest copper mining company in the world?
A.—The oldest copper mining company in the world is the great copper mining company of Falun, Sweden, whose letterheads read "Founded 1225 A. D." This company has been mining copper since that period, and produced 35,000,000 tons of ore and 500,000 tons of pure copper in the period.

Q.—Where can I attend an open-air school?
A.—The Bureau of education says that there are no open-air colleges or public high schools. The Francis W. Parker school, Chicago, Ill., and the George W. Parker school, San Francisco, Cal., have some open-air classes.

Q.—What part of a warship's crew is made up of marines?
A.—In modern naval services less than 15 per cent of the total personnel is composed of marines. These are the soldiers enlisted to fight either on sea or land.

A Free Automobile Road Book

The pleasure of that automobile trip you are contemplating this summer will depend on whether or not you go over the right roads. There will be all the difference between a good trip and a bad one, between macadam and sand, between beautiful scenery and drab, between good roads and bad ones.

Let our Washington Information Bureau aid you in planning your vacation trip. We have a new and complete automobile road book which gives insignia and descriptions of the principal highways of the United States. It contains an auto trail map, lists the various state parks and camp sites, and is full of practical suggestions for the camper and autoist. Send for your copy today. Enclose two cents in stamps for return postage.

scores are kept. If a player has confidence in his score, he places the slip in a compartment in the garage together with 10 cents. The money is used for a prize to the champion at the end of the month. Down the hill from the building, on the side nearest the street, a driving shed has been erected and A. J. Brandt one of the expert golfers is giving instruction in driving. In the center of the driveway a putting green will be placed and through a scheme worked out by Mr. Stewart the men may play golf through using the driving shed and the putting green.

Tennis Court Ready.
Further plans for beautification of the place, which is maintained by the General Motors corporation for use of all employees, call for erection of an arch at the entrance-way, over which will hang a large electric sign, "Chevrolet clubhouse" which will be so illuminated as to be seen by travelers coming to Janesville and going to Beloit.

The serious approaches to the edges of the stone quarry, which affords one of the prettiest spots in the city limits, will be protected by a white fence which will wind near by three quarters the way around. There are 2 1/2 acres in the General Motors property and other plans for utilization of the large tract are being formulated.

Tennis enthusiasts are interested in completion of a clay court near the entrance to the grounds. Benches for spectators will be placed near by and lights will be put up for night play. Mr. Stewart said.

Increasingly popular. Screens have been placed on the entire building, costing \$500. One room in the basement will be set aside for a locker room and across the hallway is a room for pool and billiards with a large fireplace. It is intended to put these rooms into use before fall.

While all rooms in the clubhouse are not occupied, the place is increasing in popularity and many have their noon meal in the club and pitch horseshoes or practice golf in the minutes that remain before returning to work. In the evening the amusement is in the air.

Trees have been trimmed around the building and the place is fast assuming an appearance that will make it the pride of Janesville.

BANKER IN PRISON. CAN'T ATTEND HIS WIFE'S FUNERAL

Kenosha.—Edward J. Williams, a banker in the Silver Lake State bank of this county, now serving a 10-year term in the state prison for violating the banking laws, has been informed that his wife is dying.

That his request to be released under guard to attend his wife's funeral in Chicago, had been denied. The board of control told Schlecht's attorneys the request could not be granted because it was necessary for Schlecht to go outside the state. An attempt to action by Gov. Blaine was ineffective.

RETURN FROM TRIP TO WESTERN STATES

Attorney P. J. E. Wood has returned from a five week tour of the western states, Canada and British Columbia. He was accompanied by Mrs. Wood and made a 1,500 mile tour of Washington and other western states with Mr. and Mrs. H. S. Lovejoy. They went into British Columbia with M. O. Mount and son, Malcolm. Considerable time was spent at Banff. Mr. Mount and son returned Monday.

STRIKERS SEEK INJUNCTION

St. Paul.—Former shop crafts employees of the Great Northern railway, who struck July 1, 1922, and have unsuccessfully sought to return to work, are seeking a court order to restrain the newly organized association of employees from interfering with their return to work.

RETURN Wednesday—Miss Helen M. West, physical director of the N. W. C. A., returned to Janesville, Wednesday night, from Cedar Rapids, Ia., where she has spent several weeks at her home.

Busy Man's Sport Page

By FRANK SINCLAIR

SENTIMENT for Thursday night's fight between Johnny Dundee of America and Eugene Criqui, of France, rests in these parts with Mr. Dundee. That is not strange for the clever lad has appeared a number of times in the ring at Milwaukee. The Scotch Wop is a 2 to 1 choice to win the featherweight title from the man across the seas. Be that as it may, Johnny had had to slice 25 pounds off his weight in a month. The feat he has done it proves either of two things. Either he was too heavy before and was in a soggy condition, or else he has taken off chin muscle, but not the brain. The other hand, the man from Europe has merely been tapering off and perfecting a good physical condition.

WILL Dundee's battle against fat present to the fans a man not strong enough to do anything but stand before the onslaught of 15 rounds? Or will the strong desire to win a title which he believes he should have had 10 years ago, and of which he has been robbed by a poor decision, spur Dundee to heroic stretches. Apparently, Dundee is not in as good physical condition as the man from whom he is endeavor to wrest the crown.

TAKING all these things into consideration, it is more of an even guess as to which will win. Criqui will be fighting against the odds of an audience that will probably have the better spirit of the two. Johnny will have a burning hope—not desire—that he might annex the title. The Italian has not had his heart in his training. His thoughts of the title are more of a "wish" than anything else. His mind has been back on Broadway while the Italian has been in New Jersey. Johnny thinks he will win, but the writer puts his guess on Criqui to retain the title.

Diamond Sparkles. (By A. P.)—Yankees put still another step between themselves and the Yankees in their nearest rivals, when Dugan's hit in ninth inning in Philadelphia, Wednesday, drove in Whitey Witt for winning run, ending game, 5-4.

Chick Evans scored a pair, 36 to 30, in his last round, when he defeated Fred Lamprecht of Cleveland.

Bill Falk of White Sox drew three days' suspension for arguing with umpire, Gurney, in Tuesday game with Detroit. Gurney, of Cincinnati, had winning streak checked after chalking up seven victories in row by Dazzy Vance of Brooklyn, who, by winning, scored sixth consecutive triumph. White Sox passed three times by Bob Healy of Philadelphia, giving him record of 100 passes for season. Walking off base, however, did not stop Yankees from winning, as they finished strong and noosed out Athletics.

Bennett Drops to Sah-K. C. Kitteners Win, 12-9

CHINAMAN GRABS NET HONORS FROM JANESVILLE MAN

[SPECIAL TO THE GAZETTE.]

Madison—A Chinaman—a short, smooth and fastly working Oriental tennis player, the first of his kind here is the new summer school tennis champion of the University of Wisconsin.

He is Peter Sah.

Wednesday afternoon, in the great tennis match ever seen here outside of Western Conference games, Sah, defeated the summer school champion, George Bennett, of Janesville.

Five Sets Are Necessary.

Playing the best three out of five, Bennett forced his conqueror, the limit before the little changes hands. Here is the way the scores ran for the winner:

6-2, 4-6, 6-3, 6-7, 6-2, 5.

Not until the fifth set was over, was the crowd notified from Bennett's head. Hard, smashing play kept the gallery on edge continuously.

With the play brilliant, with some signs of the erratic, the first four sets went two and two. The Oriental's uncanny ability to feel where the next play would be enabled him to outguess his opponent.

Did Not Seem Possible.

It did not seem possible when the men faced each other at the start of play that the extremely short foreigner could defeat the heavy, powerful Bennett. But, by playing close in and placing the ball to the line at the far end of the court, while Bennett's game was a rapid volleying game, the Chinaman won.

When the fifth match started, Bennett was apparently worn down and tired from the terrific pace of the previous four. He rested momentarily and it was just that which cost him the victory.

While Bennett slowed up, Sah shot in and before it could be fully realized he had completed the work that gave him first place in the 1923 tournament.

Paired in State Meet.

Bennett, who won the consolation singles title of the state of Wisconsin last year, playing as a member of the Janesville Tennis club, will enter the meet at the state tennis tournament, which starts Aug. 11.

In the doubles at the Badger meet, Bennett will hook up with Sah. Both were at both predict that they will make a startlingly good showing and that they hold as good chances as any one to bring home the title. They have played together often and will form a smoothly working machine.

BREAK AUTO MARK

Stuart D. Dickie, Chicago, and Noel Bullock on Thursday claimed to have broken the world's record for the half mile dirt track in the third annual American Legion Black Hills automobile race, held here Wednesday.

Dickie turned the distance in 28.4 seconds and Bullock in 29.1-5. The former record of 29.2-5 seconds was made on the dirt track at Salt Lake City, Utah.

[SPECIAL TO THE GAZETTE.]
Itacine—Beloit defeated Racine here Wednesday in the second game of their series, 11 to 9. The game was a slugfest from start to finish, and was one of the most interesting big score contests ever staged here.

The Fairies got away to a five run lead in the third inning, when after two were out they scored six runs. Two boots a walk, six hits and a base on balls did the damage.

The Horlicks played a hard uphill game, but were never quite able to reach their rivals, although on several occasions they had the bases full when the third out was made. The visitors hit Baxter and Monroe safely 14 times, but many of the blows came after the side should have been retired. The Maids got 12 blows, off Phillips.

The hitting of Clay Schoenover featured. "Schooner" got a home run with none on, two doubles and a triple, all the hits that didn't go over slumping the fence.

BRINGING UP FATHER

Favor Dundee to Defeat Criqui, Expecting 65,000

New York—With both men ready and both declaring they are going to win, the third world's championship boxing bout of the month will be staged here Thursday night.

Eugene Criqui, hard hitting French holder of the featherweight title of the universe, will defend his crown at the pole grounds against Johnny Dundee, the "Scotch Wop."

Dundee has trained himself, down to 124½ pounds, after a month on a New Jersey farm, and has sliced 27 pounds from his former weight. Criqui will enter the ring, weighing 124 pounds.

One of the keenest fights in years is due to be pulled off. Among experts, Dundee rules a slight favorite, but the Frenchman has both speed and punching powers. Both men are clever ring generals and boxers. Criqui is a year younger and has some advantage in height and reach and is a harder hitter than Johnny. Dundee's supporters believe his endurance and aggressiveness will offset any handicap his opponent may have.

An advance ticket sale has reached \$100,000, while they are expected to reach \$150,000. A crowd of 65,000 is expected.

The fighters made the following statement:

Johnny Dundee—"I will beat Criqui. No man my weight can win from me. I have been fighting lightweights and welterweights, so why should I fear Criqui? I was never better or faster or stronger, and my hands are in great condition."

Eugene Criqui—"I will win from Dundee in about 10 rounds. I will take no chances on a decision, but will try to win by a knockout. I am better now than I was against Kilbane for I have had more time to get use to the climate."

The Edgerton club defeated Sparta last Monday.

Madison Golfers Beat Beloit, 78-22

Madison.—Marble Bluff club golf players defeated representatives of the Beloit Country club here Wednesday, 78 to 22. Hidden Bort, Beloit, had the best score of the day with 78 strokes, four above par for the 18 hole course. V. A. C. Hanson headed the Madison players with a count of 79. Out of the 39 Beloit golfers only 13 got in the scoring while all but four of Madison's players counted.

Cassady Twirls Bower City to Hard Win Over Madison

[SPECIAL TO THE GAZETTE.]
Madison.—That Janesville's Knights of Columbus high ball team deserves to be in first place of the Bower City municipal league was shown here Wednesday afternoon when they defeated the Capital City Knights of Columbus, 12 to 9.

Fifty Janesville people drove up to give support to their men. Three hundred were present at the game, the first inter-city kilton battle of southern Wisconsin. The contest was staged at "Parnepark."

The Madison team was the pick of an eight-team K. of C. kiltion league, and one of the members of the squad was Jimmy Brader, assistant football coach of the University of Wisconsin.

Cassady Star Pitcher
Jack Higgins, the "shank," formerly in the clothing business in Janesville, starred for the home boys with beautiful plays and hits.

George Cassady, the Janesville pitcher, was in danger only in one inning. Outside of that, he had the locals eating out of his hand. Connell caught his usual good game. Wee Willie Kober had the crowd

gaping with his spectacular fielding and base running.
A dancing party was held at Esther Beach after the game.

The Madison team will be here next Wednesday to play Janesville at the fair grounds. Janesville has been invited to play the third game of the series at Madison's K. of C. picnic in a couple of weeks.

A dancing party for all Knights and their friends will probably be staged at the conclusion of next week's game. R. V. Conlin had charge of Wednesday's arrangement.

Seven Stars Still Fight for Western Golf Honors

[BY ASSOCIATED PRESS.]

Cleveland.—Jegs Sweetser finished the first nine Thursday, three up to Dexter Cummings, although the national champion was wild at times, never being on either the second or the third fairways at all, and dubbing his drive only a few feet from the tenth tee. Cummings could not get home after getting within striking distance of the greens, lacking both steadiness and accuracy.

Chick Evans scored a pair, 36 to 30, hold Fred Lamprecht of Cleveland.

Three class C boats: The A's are Hy Meyers Doria and Starke Meyers Can. price. The C's are Tag-Along, Clarence Thiele, Julia, Carl Haux, and Go-to-it, Walter Giljohn. The Neenah club has five entered and one or two more in reserve. Delavan will have two or more and Oshkosh will have several. Manitowish will send several craft and will probably make a bid for the 1924 regatta.

22 Girl Groups Use H. S. Pool

Twenty-two groups of girls use the pool in the high school gymnasium each week. A new plan is being tried whereby girls of each playground may swim an hour each week. All girls are urged to purchase regulation swimming suits used by high school classes to prevent the dye of other suits from staining the floors of the pools. Two slides are now being erected at the beaches, one having been taken from the Grant and Jackson schools.
